## We use & recommend:

Paul Mitchell, **FUDGE** and **TIGI** hair products, all of which are on sale in reception.

### Why?

Because if you are spending good money on your hair, i.e. Colour, Perm or any other service and your Colour fades or your perm drops, who do you complain to first? Probably us. For this reason it is our job to advise you to use the professional products we use in the Salon, to keep your new haircut looking great at all times.

**Ask about PermChecks,  
advance booking discounts,  
late nights, etc.**

## COLOURING & PERMING

There are so many different colouring & perming products and techniques to complement so many different hairstyles it would be improper to try to list all of the individual prices, so we prefer you to come into the Salon (**IT'S FREE**) to discuss & decide which particular colour or perm technique would suit your new look & give you a firm quote.

### NO OBLIGATION

Ask about our new conditioning straightening system
